

Wei Xu

CONTACT INFORMATION	Room 359, Student Apartment 6	Mobile:(+86)188-1052-9095
	No.10 Xi Tu Cheng Road Beijing, 100876 China	E-mail: ginues109@gmail.com Website: http://wei-xu.github.io/
EDUCATION	Beijing University of Posts and Telecommunications (BUPT) <i>B.Eng. Communication Engineering, expected July 2015</i>	Aug. 2011 - Present
EXPERIENCE	Internship in Baidu, Inc. <i>R&D in Music Department</i> My duties include designing and optimizing singer recommendation system. <ul style="list-style-type: none">• Practice in Hadoop Streaming and MapReduce rewriting• Data mining in Python• Applied machine learning algorithms such as Collaborative Filtering for recommendation	Sept. 2014 - Present
	Research on Reconfigurable Processors <i>Institute of Microelectronics, Tsinghua University</i> I did research on the performance of reconfigurable processors on cloud platforms at Research Center for Mobile Computing. My job is to design suitable configurations for reconfigurable processors and to distribute jobs using Hadoop framework on clusters consisting of reconfigurable processors to achieve higher performance. <ul style="list-style-type: none">• Designed process of parallel computing• System simulation in C language	Jul. - Oct. 2014
	Research on Machine Learning <i>Future Network Theory and Application Laboratory, BUPT</i> <ul style="list-style-type: none">• Studied the algorithms of neural networks including Developmental Networks and Echo State Networks• Neural networks implementation and evaluation	Mar. - Jul. 2014
	Android Application Development App Name: <i>Campus Homework Assistant</i> <ul style="list-style-type: none">• Developed an application on Android that helps students check homework based on their classes and remind them to finish their homework.• Developed with Android SDK, MySQL, Java• Applied network programming and HTTP protocol	May 2013 - Apr. 2014
	Battle City Game Development <i>Curriculum Design</i> I wrote a simple Battle City game in C++ in Win32 console. <ul style="list-style-type: none">• C++ multithreading• The enemy has simple AI. The more enemies are destroyed, the more difficult the game becomes.	Aug. 2012
COMPUTER SKILLS	<i>Languages & Software:</i> C/C++, Java, Python, HTML, Hadoop, L ^A T _E X <i>Operating Systems:</i> Linux	
AWARDS	• Honorable Prize in Mathematical Contest in Modeling	2014
	• 3rd Prize Scholarships	2013
	• 3rd Prize in College Physics Competition, Beijing	2012
	• CCTV Star of Outlook English Talent Competition, Silver Award (Top 1% in Beijing)	2011
ACTIVITIES	• Worked as a tour guide volunteer in <i>The Former Residence of Soong ching ling</i> (3 hours per week for one semester)	2012
	• Taught as a volunteer in <i>Xinxin</i> primary school (2 hours per week for one semester)	2012
	• Elected Vice President, <i>English Club</i>	2011
